Abstract

This study explores the relationship between traditional business practices and modern entrepreneurship, focusing on the historical significance of merchant guilds, indigenous trade systems, and family-run enterprises. It examines how traditional principles such as ethical conduct, collective decision-making, mentorship, knowledge transfer, and community engagement can contribute to contemporary business governance and sustainability. The study adopts a qualitative-descriptive and comparative research design based on secondary data, historical literature, scholarly publications, and selected business cases. It further analyses the relevance of Vedic ethical principles, including Dharma, Karma, Artha, Ahimsa, Satya, and Dana, in addressing modern entrepreneurial challenges. The analysis highlights the potential application of traditional wisdom in strengthening ethical leadership, succession planning, stakeholder relationships, ESG practices, and organizational resilience among Indian SMEs and family businesses. The study proposes an integrated conceptual framework connecting historical business values with contemporary strategic practices. It concludes that adapting traditional entrepreneurial principles alongside digital transformation and modern governance mechanisms can support sustainable, ethical, and resilient business development.

Keywords: *Traditional Business Practices, Merchant Guilds, Modern Entrepreneurship, Family Businesses, Vedic Principles, Ethical Governance, Sustainability, Indian SMEs*

1. Introduction & Historical Foundations

Trade and commerce have been central to human civilization over millennia. In ancient India, merchant guilds such as the Five Hundred Lords of Ayyavole (Shrenis) and family-run enterprises functioned as both economic regulators and social institutions that fostered trust, quality standards, apprenticeship mentorship, and intergenerational knowledge transfer.

1. Introduction & Historical Foundations (Continued)

Trade and commerce have been central to human civilization over millennia. In ancient India, merchant guilds such as the Five Hundred Lords of Ayyavole (Shrenis) and family-run enterprises functioned as both economic regulators and social institutions that fostered trust, quality standards, apprenticeship mentorship, and intergenerational knowledge transfer.

2. Literature Review & Research Gap

Drawing on comparative scholarship (Rani, 2023; Fisher, 2024; Lucassen, De Moor, & van Zanden, 2008; Baumol, 1990; Grafe & Gelderblom, 2010; Mokyr, 2006; Berghoff & Spiekermann, 2016; Ren & Cheng), the study addresses the empirical gap connecting historical guild and family business principles to the governance, ESG compliance, and supply chain resilience of modern Indian SMEs.

2. Literature Review & Research Gap (Continued)

Drawing on comparative scholarship (Rani, 2023; Fisher, 2024; Lucassen, De Moor, & van Zanden, 2008; Baumol, 1990; Grafe & Gelderblom, 2010; Mokyr, 2006; Berghoff & Spiekermann, 2016; Ren & Cheng), the study addresses the empirical gap connecting historical guild and family business principles to the governance, ESG compliance, and supply chain resilience of modern Indian SMEs.

3. Comparative Historical Analysis & Vedic Principles Framework

Using a qualitative-descriptive and comparative design, the study integrates historical guild practices with Vedic ethical constructs: Dharma (Bhagavad Gita 2.47), Karma (Bhagavad Gita 3.19), Artha (Arthashastra, Book 1), Ahimsa (Rigveda 10.191), Satya (Yajurveda Shukla 32.1), and Dana (Atharvaveda 12.1), evaluating their alignment scores across modern enterprise governance objectives.

3. Comparative Historical Analysis & Vedic Principles Framework (Continued)

Using a qualitative-descriptive and comparative design, the study integrates historical guild practices with Vedic ethical constructs: Dharma (Bhagavad Gita 2.47), Karma (Bhagavad Gita 3.19), Artha (Arthashastra, Book 1), Ahimsa (Rigveda 10.191), Satya (Yajurveda Shukla 32.1), and Dana (Atharvaveda 12.1), evaluating their alignment scores across modern enterprise governance objectives.
